## DETAILED ACTION

### *Election/Restrictions*

**Note:** Applicant elected claims 10-12 with traverse is hereby acknowledged, and has provided arguments with respect to the requirement that traverses the Examiner's reasoning for the restriction requirement. Applicant has also added new claims 13-16, and amended the claims in Groups I and II, which therefore requires a new restriction requirement as set forth below.

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

**Group I**, claim(s) 7-9 and 13-16, drawn to a method of indexing a machine or the like in position on the ground.

**Group II**, claim(s) 10-12, drawn to a machine leg.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: **Group I** requires the special technical feature of using a drilling tool passing along the bushing which is not required by Group II; **Group II** requires the special technical feature of the bottom being integral with the bushing which is not required by Group I. Therefore, restriction as indicated is proper.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
